WORK EXPERIENCE

Frontend Web Developer

Aug 2022 - Dec 2022

Avasoft | Navalur, Chennai

- Having experience in both Frontend development and ServiceNow development (ITSM).
- Gained proficiency in HTML, CSS, and JavaScript through real-time use cases. Learned how to design and perform validations using JavaScript. Additionally, I have become familiar with the ServiceNow platform, including capturing the update set and deploying it to the client instance.
- The ServiceNow platform is commonly utilized by enterprise organizations due to its ability to support numerous departments and a large number of employees.

PROJECTS

Vinayaka Flour Mill-Business

[View in GitHub](#)

- I employed React.js, utilizing its Hook state and Hook effect concepts, to develop a concise website for my father's business.
- This website facilitates CRUD operations, ensuring smooth data management. Moreover, I implemented GitHub Actions to automate the synchronization of highlights whenever updates are made.
- The website is fully responsive and compatible with all devices.

Rakesh Portfolio

[View in GitHub](#)

- Utilize React.js to encompass the construction of my portfolio website.
- Integrate my credentials, past projects, and contact details into the website. Additionally, I aim to establish a smooth connection with a database.
- Ensured the website's complete responsiveness on all devices. Moreover, incorporate captivating animations using AOS to create a fully animated portfolio.
- Leverage the Email JS package to seamlessly integrate mail services, allowing anyone to send an email to my mailbox by filling out the contact form.
- Furthermore, employ a mechanism to automatically push any updates made to the portfolio to GitHub using Git.
